

# Mars Aspects

with Ari Moshe

### Karmic dynamics

- Unrestricted and adolescent “yang” energy, dealing with negative affects of violating boundaries and limits
- Rushing to status and importance, not taking time.
- Shame, guilt, fear, judgment and suppression of “yang” impulses.
- Can emphasize pushing boundaries or one’s boundaries always being pushed. “pushing” and “pushing back”.
- Issues of immaturity

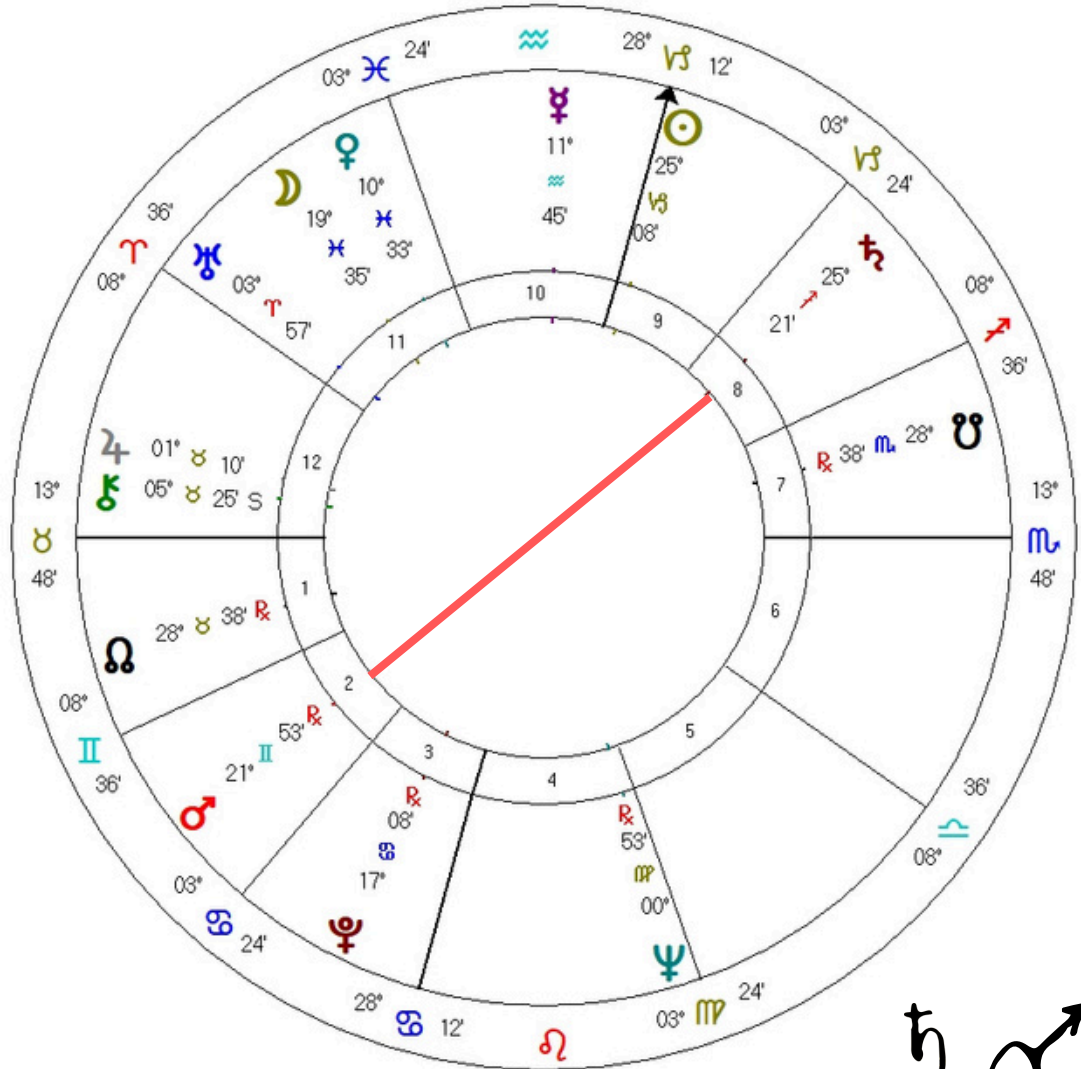

### Considerations

- Social context relative to gender and expression of “yang” energy
- Sexual needs, what the soul may need to access, give expression to or conversely tame and mature

### Growth / evolutionary intention

- Cultivation of refined, disciplined and trained capacity for RESPONSE (and responsibility).
- Emphasis on training and leadership.
- Going slow to go fast.
- Often need to unravel conditioned or unchecked patterns related to sexuality, or “yang” expressions (including attractions). Learning to abstain.
- Unavoidably will learn from experience and become more refined.

He alleged that King explained his affairs as "a form of anxiety reduction". Garrow asserted that King's supposed promiscuity caused him "painful and at times overwhelming guilt".

At one point senior FBI officials sent an incriminating tape and an anonymous letter to King, calling him “an evil abnormal beast” and warning him that “your adulterous acts, your sexual orgies” were “on the record for all time”. The letter ended with a barely veiled suggestion that King should commit suicide “before your filthy, abnormal, fraudulent self is bared to the nation”. When King learnt of the tape’s contents, he is said to have told one aide over a wiretapped phone line that the FBI was “out to get me, harass me, break my spirit”.

"It's a lot more than mind over matter. It takes relentless self discipline to schedule suffering into your day, every day"

"There is no more time to waste. Hours and days evaporate like creeks in the desert. That's why it's okay to be cruel to yourself as long as you realize you're doing it to become better."

"If you can get through doing things that you hate to do, on the other side is greatness".

"You are in danger of living a life so comfortable and soft that you will die without ever realizing your true potential."

"Denial is the ultimate comfort zone."

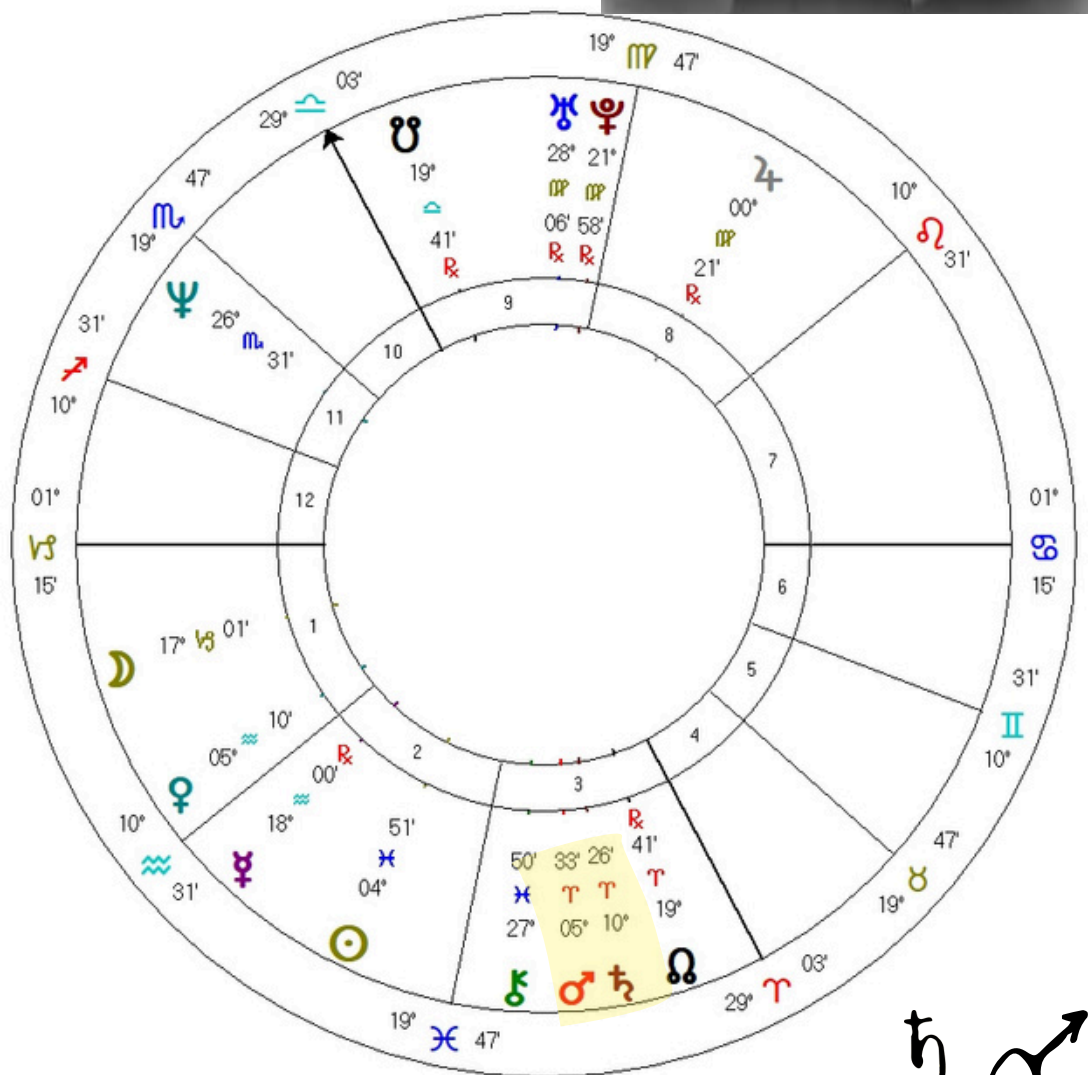

"The Buddha famously said that life is suffering. I'm not a Buddhist, but I know what he meant and so do you. To exist in this world, we must contend with humiliation, broken dreams, sadness, and loss. That's just nature."

"We can't control all the variables in our lives. It's about what we do with opportunities revoked or presented to us that determine how a story ends."

"In every failure there is something to be gained, even if it's only practice for the next test you'll have to take. Because that next test is coming. That's a guarantee."

If you're a fish, and you want to become a fish stick, you have to have very good posture.

I read last year that MTV's *Real World* got 40,000 applications. That's amazing, man... such an even number.

When you're in Hollywood and you're a comedian, everybody wants you to do other things besides comedy. They say "All right you're a stand up comedian, can you act? Can you write? Write us a script." They want me to do things that's related to comedy, but it's not comedy. That's not fair. It's as though if I was a cook, and I worked my ass off to become a good cook, and they said "All right you're a cook... can you farm?"

Whenever I walk, people try to hand me out flyers. And when people try to hand me out a flyer, it's kind of like they're saying "Here, YOU throw this away."

### Karmic dynamics

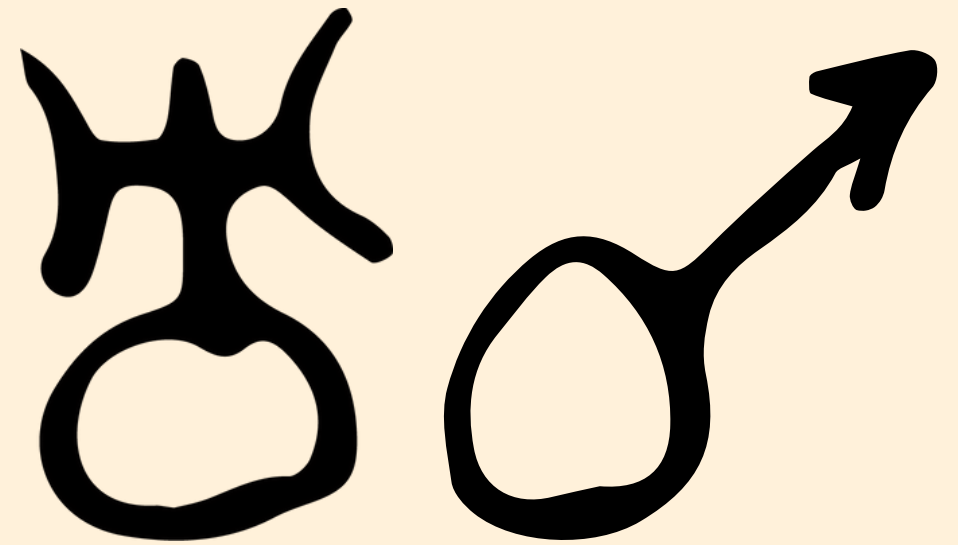

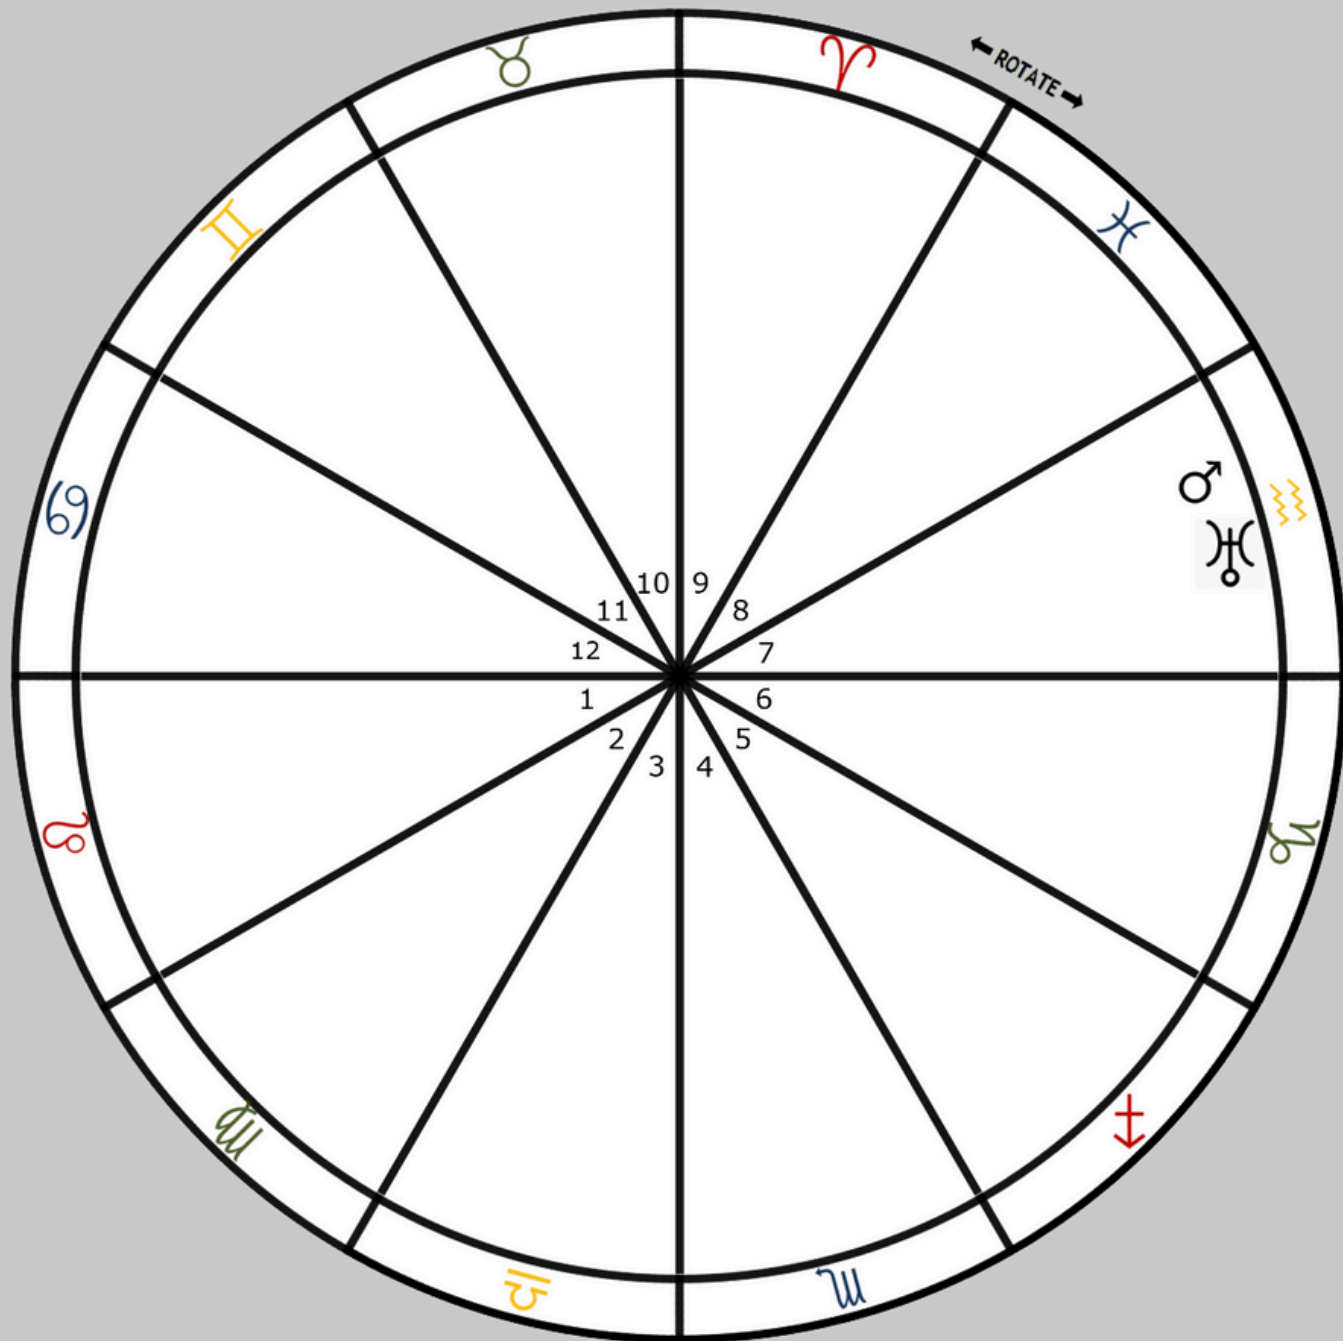

- Unconscious memory of extreme shock, violence, aggression (perpetrator or victim)
- Can reflect highly suppressed “yang” energy (rage, sexuality etc)
- Impulsive and erratic “yang” expressions/ losing control, hyper extreme state of activity.
- Can reflect a hyper defensive and “on guard” state
- Can reflect extreme experiences of *being* suppressed or held back
- Dissociation/disconnect from sexual or impulsive drive VS extreme and hyper aroused.

### Considerations

- The natural sextile between Aquarius and Aries = liberating impulse to act and individuate. Underlying need for freedom.
- Often involves archetypes of “leading a community/revolution” or “being attacked by a mob”

### Growth

- To be free of precedent; mental freedom to make whatever new choice are necessary for one’s ongoing growth
- Liberate from reactivity and evolve the “Mars” energy to a higher level: elevating the “yang” principle.
- Freedom from fear, breaking out of personal limits to one’s freedom. Liberating from “being blocked or limited”

"I don't see how they think [my act] can contribute to juvenile delinquency. If there's anything I've tried to do, I've tried to live a straight, clean life and not set any kind of a bad example. You cannot please everyone."

"I don't do any vulgar movements."

When Elvis' mother Gladys died in 1958 his craving for companionship in bed became stronger,. says Williamson.  
 'There had been a river of sex before, now there was a flood.'

From 1958 until his death in 1977, he always needed a woman or girl in bed.

'His sexual appetite was very, very strong', said Lamar Fike, who lived in several of Elvis's houses.

"Writing for a penny a word is ridiculous. If a man really wanted to make a million dollars, the best way to do it would be to start his own religion".

After his initial self-help system, Dianetics, was rejected by the scientific community and the accompanying foundation went bankrupt, Hubbard recast his ideas as a religion called Scientology. Critics contend this was done specifically to gain tax-exempt status and avoid prosecution, thereby ensuring all income went directly to him without government interference.

Scientology charges followers exorbitant sums of money for "training" and "auditing".

# Honorable Mention

### Karmic dynamics

- Wounding experiences related to leadership, action, personal will.
- Emphasizes the archetype of the “wounded warrior”
- Can express as a strong inner sense of aloneness
- Guilt relative to one’s capacity (or deserving) to utilize Yang, sexual, assertive, or willful energy
- Entering into leadership experience beyond one’s capacity to cope.
- Wounding/ fear/ vulnerability related to the masculine energy
- Creating wounding for others by way of misusing the Yang energy.

### Considerations

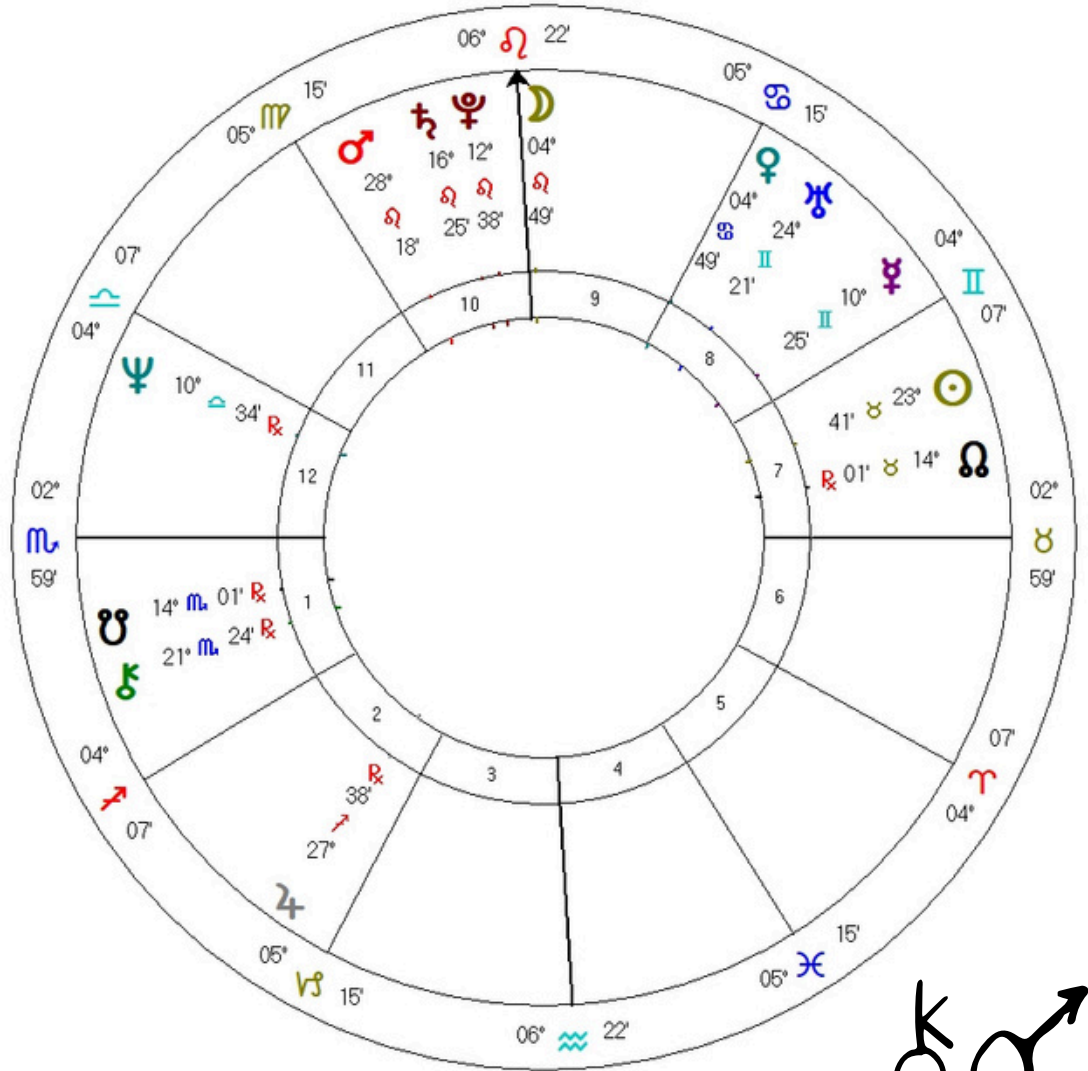

- Chiron is a medicine making process, Mars requires action and will often be messy.  
Together we have a situation where action can induce strong guilt, and at the same time the soul needs to learn to trust itself.

### Growth

- Finding the courage to act, to follow one’s own path EVEN through self-doubt and guilt
- Becoming courageous even if it hurts, there is a path to pave that will help others.

Israel's declaration of independence shares the same transits/ time period as the Palestinian "nakba" meaning catastrophe.

Significant ethnic cleansing of majority of Palestinians to refugee areas. Fracturing of Palestinian society and creation of "right of return" for Jewish people to move to Israel.

I was depressed. You would be. You were breaking from your lifelong friends

#### Karmic dynamics

- Issues with delusional purpose, idealization of one's personal will, stamina, power, prowess, sexual vitality.
- Deep sense of vulnerability, weakness, sense of having no control or power to make any changes.
- Can highlight issues of extreme victimization and violation (desecration of innocence) often associated with youth (Mars)

#### Considerations

- Semi sextile to Pisces speaks to the reconciliation between "personal will" and "ultimate truth/ power".
- Existential conflict/ confusion between how to integrate/ understand one's personal will/desires in the context of truth.
- Can reflect incredible "superhuman" power just as much as that power can be dissolved into nothingness.

#### Growth / evolutionary intention

- To link one's actions with higher ideal and inspiration.
- To understand advancement and retreat as a part of a larger plan, to be empty and available for the path.
- Cultivating spiritual activism, motivation of great energy. Can become spiritual icons.
- From a Mars POV, there is simply the reality of playing out illusions, becoming something important, giving meaning to projections of strength and "winning". This however may only lead to it's ultimate dissolution, which is a part of the process.

#### Karmic dynamics

- Evolutionary dynamics related to use of will and power relative to the deeper psychological impulses of the soul
- Facing one's psychological limits and diving deep to overcome obstacles to new choices and actions.
- Issues with power over, abuse, sexual violence as well as being victimized by these things
- Lack of power/ agency to make choices. Bound by compulsive additions

#### Considerations

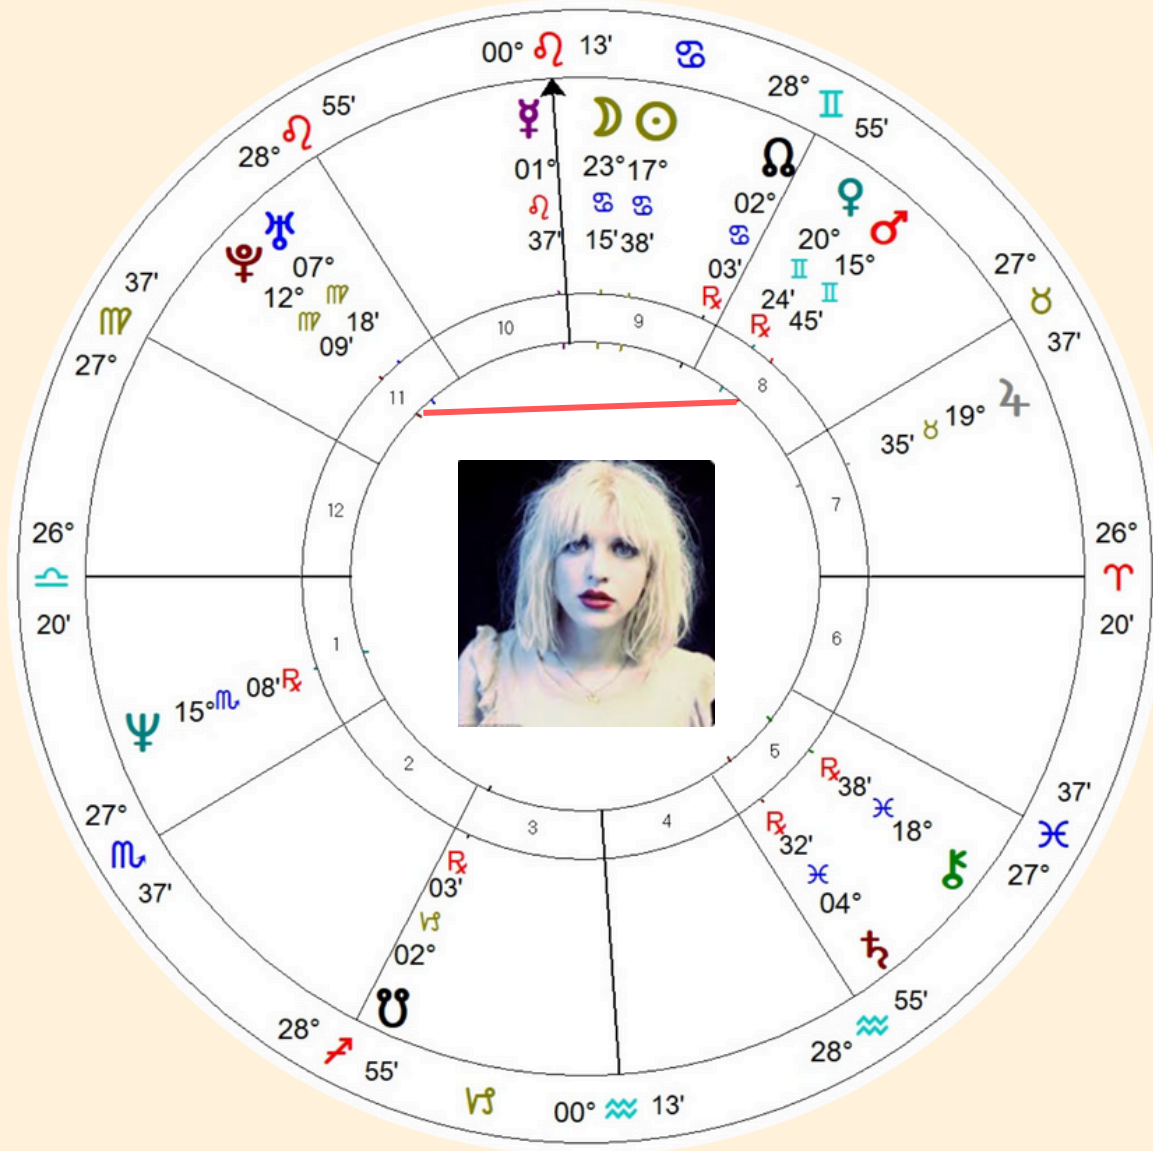

- Full phase inconjunct with Scorpio symbolizes the inevitability of unearthing deeper soul-level content. The actions of Mars lead us to the deeper stuff.
- Can reflect deep permeating fear of commitment/entrapment. Need for freedom but subconsciously attracting experiences in order to evolve past one's fears and compulsions. Freedom here is freedom from attachment.

#### Growth / evolutionary intention

- Agency and resilience to overcome inner limits. To act and CLEAR the way for the soul's evolutionary path.
- Need to eliminate and also pursue action in order to BURN and exhaust existing desires. "No way out but through" kind of situation
- Transmutation of desires. The actions that are chosen ultimately point back to what we most desire. Action follows desire.

# Courtney Love

When he was 6 years old there was a car accident. As a treatment for surgery, all these men held him down twice and it was indescribable pain. It happened twice and he was held down to get a shot.

With Ayahuasca, he was told that he needs TO FEEL again. He had so much sensation but it was too much and felt so deeply he almost couldn't take it. The issue is that he dissociated. He was told "you are going to feel again."

"I will never put myself into a situation that I can't escape"
